Chartered Banker MBA

Bangor Business School is the only institution globally to offer the Chartered Banker MBA, a ground-breaking qualification that allows you to gain a top MBA in Banking and Finance and the coveted 'Chartered Banker' status - the highest professional designation available to bankers worldwide.

'Chartered Banker' status is granted by the Chartered Banker Institute, the only professional banking institute in the UK. It is committed to raising the standards of professionalism at all levels in banking and financial services, and to rebuilding public confidence and trust in banks and bankers.

Designed for busy professionals, this blended learning programme can be studied from wherever you are and at your own pace. The Chartered Banker MBA emphasises professional and vocational development, enhancing the understanding and application of those skills required in 21st century banking. This MBA experience brings together high level skills and knowledge from an internationally recognised university and centre of research excellence with the professional and managerial competencies of a world-leading professional institute dedicated to the profession of banking.

In short the Chartered Banker MBA (CBMBA) provides a qualification that meets the challenge of the new, post-crisis banking environment.

Who would benefit from the programme?

The CBMBA is aimed at ambitious individuals in banks and other financial services firms, or those seeking to join the industry, who wish to extend their knowledge and understanding, and to acquire the skills to cope with change in the ever-evolving financial services industry. This high-level and intensive learning experience combines generic MBA disciplines (such as marketing, human resources and strategic management) with more specialist ones (including risk management, credit and lending, and professional ethics and regulation) that reflect modern banking and finance.
