Chartered Banker

Re-professionalising BANKING TOGETHER

Globaltraining is the exclusive education partner for the Chartered Banker MBA in Cyprus, Greece, Russia, Romania and Eastern Europe

Over the last few years, the banking profession has undergone a major reform and transformation which has led to the need for further education and environmental change. Bangor University Business School, after significant research, has designed the ground-breaking Chartered Banker MBA that allows you to gain a dual award of a top MBA in Banking and Finance and the coveted 'Chartered Banker' status. The Chartered Banker status is awarded by the Chartered Banker Institute, the only professional banking institute in the UK.

Bangor University is a long-established University with over 125 years of experience and success, with its Business School also having a London Centre. It currently has more than 10,000 students and is part of the traditional UK University sector. Bangor University Business School is consistently ranked as one of the Top Universities in Europe and in the world Top 20 for its banking research (Federal Reserve Bank

of St Louis/RePEc, 2015). The school is also ranked independently in the top 25% of UK business schools for its business and management research (*Times Higher Education*, 2015).

The Chartered Banker MBA is further enhanced due to the flexibility it offers both as means of delivery and also through the availability of various study routes available to suit the needs of the busy professional seeking flexible and reputable executive learning.

This innovative programme is delivered as blended learning and can be studied from wherever you are at your own pace. Students are provided with extensive learning tools

THIS INNOVATIVE PROGRAMME CAN BE STUDIED FROM WHEREVER YOU ARE AT YOUR OWN PACE

and resources, available through the virtual learning environment operated by the University. This is complemented by face-to-face revisions to encourage networking and provide a community environment for attendees. However, should work responsibilities make it hard for you to attend, it will all be recorded and uploaded onto your personal online platform.

The structure of the course is divided into 12 modules, of which four are compulsory and eight are elective, allowing candidates to choose those topics in which they would like to specialise. Furthermore, candidates may be granted up to 8 modules' exemptions, subject to their previous academic qualifications and their executive level experience, and may thus embark on the Super Accelerated route.

Globaltraining, with over 20 years of experience in professional training and its commitment to excellence, is fully supporting this elite programme and is now the exclusive education partner for the Chartered Banker MBA in Cyprus, Greece, Russia, Romania and Eastern Europe. This partnership is also supported by our strategic partners, the Cyprus Institute of Financial Services. This is another achievement that we are proud of, and it

can be added to our long list of achievements in shaping and advancing professional education in the financial sector.

This MBA is suitable not only for candidates who are currently working in the banking profession but also for accountants, lawyers and other professionals seeking to further understand the holistic nature of bank management.
