Welcome Letter

PIONEERS in education

ver the years, Globaltraining has proven itself to be a pioneer in education, understanding the importance of professional and quality training.

We warmly welcome the opportunity –

through this booklet – to celebrate the numerous students who have excelled in their

studies and, moreover, thank their lecturers who have shown never-ending commitment and dedication to distinction.

The ACCA and ACA qualifications are recognised worldwide, with almost half a million students, in over 170 countries, currently studying for one of these certifications.

In the last year alone, nineteen Globaltraining students achieved among the top ten highest results in these international examinations. This is an outstanding accomplishment and one that should be noted and rewarded.

In its 23-year history, Globaltraining has expanded abroad in the Balkans and Easter Europe. Now, through our Live Online mode of study, we are opening up our horizons even further.

As we grow, so does our network of students and the courses that we offer. We currently offer over 10 diverse qualifications, and various specialised seminars, in which many thousands of professionals participate.

We will continue to grow, moving forward every day, forever committed to supporting our students at every step of their professional journey.

In this edition, we are thrilled to be able to present to you our stars, our ACCA & ACA international prize winners as well as our ACCA national prize winners since 2008.

I take this opportunity to address cordial greetings to all of our students and graduates as well as their employers who sponsor their studies.

Although ACCA is now more accessible to a wider public than when I started, without the help and guidance of a professional training institution like Globaltraining, it is much harder to deal with the exams. Globaltraining played a significant role during my ACCA exams as it helped me understand each exam faster and see it much more simply. Globaltraining's assistance was of greater importance for me compared to most of the other ACA students, as I did not have an accountancy background, nor did I study a business-related subject at university (my degree was in Quantity Surveying). Despite this, the knowledge, skills and experience I gained through Globaltraining for the purpose of my ACA studies provided me with all the right tools required to conceptualize the study material and feel confident enough to pass all my exams at the first sitting and to win a worldwide prize.

Professional ambition: As we live in a time of uncertainty, I believe that it is more important for me to set short-term goals. Thus my main ambition at present is to complete the ACA qualification and to achieve a high standard of practical training so as to obtain the knowledge and experience that are crucial in giving me a rewarding future career.

They are also very helpful and available to answer questions at any time. Most importantly, they give us study tips, teach us exam techniques and even tell us about stress management! The materials provided in the form of summary notes of the study manuals are user-friendly and sufficient not only to pass an exam, but, obviously, to score highly. I have always relied upon this material and it has proved to be a major contributor to my success. The classrooms are equipped with the latest technology and the lectures are delivered in a friendly way. A number of other facilities are provided in the building so that our stay with Globaltraining is pleasant and enjoyable.

Professional ambition: I am currently working towards the final exam of the ACA qualification. Hopefully, I will become a Chartered Accountant by July 2014. My plan is to work in Cyprus for a few more years so as to gain the necessary post-qualification experience. Afterwards, I will search for career opportunities abroad because working in another country is a big challenge and a great experience.

How has Globaltraining assisted you to this success?

This success came as a result of hard work and high-quality guidance from Globaltraining. It contributed greatly towards this success mainly due to its simplification of the syllabus, which minimized the required study time. When you work full-time and your available time is limited, you need a tuition provider who can plan your study, highlight the main areas of the syllabus and provide you with the appropriate knowledge not only to pass the exams but also to use this knowledge in your professional field. Globaltraining successfully fulfils these requirements. Highly-qualified and experienced tutors gave me information on how the exam is structured, advised me on exam techniques and provided me with useful tips on how to approach each question and manage my available time, thereby helping me to give the best of myself.

Professional ambition: My plan for the future is to become an ACCA member with the support of Globaltraining in order to further develop my accounting career and gain the flexibility which will provide me with international mobility in a wide range of business sectors.

How has Globaltraining assisted you to this success?

My 100% success in the ACCA exams up to now would not have been attained without the full support provided by the experienced lecturers, friendly administrative staff, well-organised course schedule and fully-equipped infrastructure. The product offering of Globaltraining is well above the services that its competitors offer. Globaltraining prepares students not to merely pass an exam, but to stand out from the crowd. The support provided by the top-class lecturers is of major importance towards the successful completion of the "marathon" called professional qualification.

Professional ambition: I would like to complete all the remaining JES courses with 100% success and be promoted to higher positions within my firm.

"I started attending preparatory courses for the purpose of obtaining the JES qualification in February 2012. I am very satisfied by the services provided so far. Every minute spent on lectures is totally worth it, especially when working for a Big Four company where time management is a crucial factor for success".

How has Globaltraining assisted you to this success?

Even though I had the chance to attend a few classes where the lecturer was a member of the Globaltraining team, the support I received from Globaltraining was important. The training provided was of the highest quality and the lecturers and others at Globaltraining were very helpful and willing to assist us at any time. Their high level of knowledge and experience in the professional examinations is proved by the number of global awards gained by their students. All of the above contributed to my success.

Professional ambition: I wish to complete my professional examinations according to the timetable set by the firm and become a qualified accountant. I also want to learn more about auditing and deal with more complex audit areas and clients. In time I am to gain valuable knowledge and experience relevant to my work and gradually become a successful auditor. Ideally, I will be able to deal with finance, and specifically with the valuation of projects, something which is more relevant to my University studies.

How has Globaltraining assisted you to this success?

I participated in the revision session for paper P2 just a few weeks before the exam. This session helped put the essential last days of studying in order and made me focus on the requirements of the specific paper. Additionally, valuable tips concerning exam technique were provided during the course. The professor in charge of the session helped me understand some "grey areas" of the syllabus, and, most importantly, helped me draw up a study plan for the remaining days until the final exam.

Professional ambition: I think that in the current situation, ambitions are shaped day by day and high ambitions can lead to big disappointments, so my ambitions for the time being are to complete my ACCA studies and obtain as much professional experience as I can.

"I have attended the revision sessions of several ACCA courses since January 2011 when I first started to study for the ACCA exams. The people at Globaltraining have managed to create an attractive studying environment and, from my experience, an exam-focused study programme."

How has Globaltraining assisted you to this success?

ACCA P2 Corporate Reporting examines a student's knowledge and application of IFRS accounting standards which is 'must have' knowledge for me as an auditor and professional accountant. Being a professional level exam, it incorporates the whole syllabus of F7 Financial Reporting as well as many new standards and current issues. To achieve success in such a demanding exam, you need deep knowledge and clear direction during your studies, and this is what I received from Globaltraining. I am really grateful to my F7 and P2 tutors who gave me deep understanding of the subject and taught me how to apply my knowledge in practice. Overall, I am really glad that I did my ACCA journey together with the Globaltraining Cyprus team. They are professionals who have contributed so much to my success.

Professional ambition: I started my career path in retail and corporate banking with Société Générale. My next step was in the IFRS department in the Russian subsidiary of Alliance Renault-Nissan. To broaden the range of my experience I decided to continue my career with PwC Cyprus, which has offered me intensive on-the-job training in audit and assurance as well as the opportunity to complete the ACCA qualification. Being a part of PwC Cyprus has given me a wide range of experience and developed me as a professional. The current economic environment is constantly changing but, considering my background and experience together with the advantages of a professional qualification such as ACCA, I feel confident that I can deal with these changes and pursue further my career in accountancy and finance.

My teacher's passion and knowledge as revealed in his lectures definitely contributed to my success, as did his willingness to assist me after lecture hours. This reinforced his professionalism in my eyes. The study material handouts and the P2 lecturer were very organized and focused on the subject's core requirements. The lecturer passed on the importance of the subject and provided guidance throughout the duration of my studies.

Professional ambition: There is no doubt in my mind that the qualification gained through Globaltraining and the professional experience gained from working in world-class companies have allowed me to revise my personal ambitions and goals upwards. I strongly believe that I can increasingly apply myself to new duties dedicated to me in my profession.

"I did all my ACCA courses at Globaltraining. I found Globaltraining very organised and the staff (lecturers and administrative staff) extremely helpful. All the support that I needed during my studies was given to the full by Globaltraning and its teachers."
